PROJECTS

Pingu Discord Bot | Python ⦿

- Designed for the Computer Science Class of 2026 Discord at Toronto Metropolitan University
- Contains moderation, management, user customization, and fun commands
- Allows staff to eliminate spam, advertising, or NSFW content using chat filters.

Coodebook.dev | HTML, CSS, JavaScript, SQL, MongoDB ⦿

- An extremely versatile and easy-to-use code editor and compiler.
- Uses a mix of front-end and back-end frameworks to personalize the experience for each user

Weather-React | HTML, CSS, ReactJS ⦿

- A data-driven weather webpage built with ReactJS.

Minesweeper | Swift, SwiftUI ⦿

- A Minesweeper game coded only using Swift/SwiftUI. Customizable options such as grid size and difficulty with the ability to reset the playing field at any time.
